Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 12-19 to inventions and/or species non-elected without traverse. Accordingly, claims 12-19 have been cancelled. ✓

Reasons for Allowance

In their Appeal Brief of July 16, 2004 Applicants have further clarified the exact meaning of "non-volatile rewriteable random access memory" as non-volatile rewriteable random access memory being memory which can be read from and written to in single-byte increments as exemplified by ferromagnetic RAM and ferroelectric RAM. The Examiner finds claims 1-11, 20 and 21 allowable when the phrase "non-volatile rewriteable random access memory" is interpreted as set forth above.

Examiner's Comment

Claims 1-11, 20 and 21 are allowed.
